

## Answer to iClicker Question #7B (Themes 1)

- A) False - animals must use organic carbon.
- B) True.
- C) False - only plants can use light energy as an energy source.

So the only correct answer is (B).

## Answer to iClicker Question #7B (Themes 1)

Which of the following statements are true?

- A. Both plants and animals require externally-supplied vitamins. *Only animals require vitamins in their food; plants make their own.*
- B. Animals can make some monomers from other monomers. *This is true.*
- C. All of the carbon atoms in a plant came from the air. *This is true.*

So the only correct answer is (E).
